Location: Hyderabad, Telangana, India

CAREER OBJECTIVE

Motivated and detail-oriented B. Tech student specializing in Artificial Intelligence and Data Science with a strong foundation in programming, data analysis, and machine learning. Passionate about leveraging AI-driven Full stack developer solutions to solve real-world problems and eager to contribute to innovative projects in the fields of Data Science, Artificial Intelligence, and Technology.

EDUCATION

B.Tech in Artificial Intelligence and Data Science	2022-2026
Megha Institute of Engineering and Technology for Women, Hyderabad	
CGPA: 8.5 / 10	
Intermediate (MPC)	2020-2022
Akshara Junior Collage, Hyderabad	
Percentage: 9.8 / 10	
10th (SSC)	2019-2020
Mother Teresa English Medium High School, Luxettipet	
Percentage: 10/10	

TECHNICAL SKILLS

Programming Languages: Python, C, R Programming
Web Technologies: Node.js, HTML, CSS
Libraries & Frameworks: TensorFlow, Scikit-learn, Pandas, NumPy
Technologies & Domains: Machine Learning (ML), Data Science
Tools & Platforms: VS Code, Jupyter Notebook, Anaconda, Git, Google Colab, MySQL, Power BI
Core Subjects: Data Structures, DBMS, Machine Learning, Big Data Analytics, Data Visualization

EXPERIENCE

Virtual Internship	Dec 2025 - Feb 2026
Infosys springboard - Data Visualization Intern	
Project: Visualizing US Natural Disaster Declarations: Trends and Patterns	
Description : A data visualization project analyzing U.S. natural disaster declarations to identify trends, patterns, and high-risk regions using interactive charts and insightful visual analytics.	
Responsibility : Collected, cleaned, and analyzed datasets to identify yearly trends, frequently occurring disaster types, and high-risk regions through interactive visualizations and data analytics techniques.	
Project Role: Data Analyst	
Skills: Python Programming, Power Bi, Machine Learning, Data Analysis, Data Visualization, Pandas, Tableau, API Integration	
Internship	Mar 2024 - Jun 2024
DataPoint Info Solutions, Hyderabad – Node.js & Django	
Responsibility : Developing web applications, backend APIs, and database-driven solutions	

PROJECTS

Granite Industry Performance Analysis	Nov 2025 - Mar 2026
Description : Developed a machine learning model to analyze and assess granite industry performance using data analytics and predictive techniques.	
Responsibility : Collected and processed data, trained ML models, analyzed industry trends, and visualized performance insights using Python tools.	
Domain: Machine Learning	
Skills: Python Programming, Machine Learning, Data Analysis, Data Visualization, Predictive Analytics	

- GenAIChatBot** **Jan 2025 - May 2025**
Description : Developed a Generative AI chatbot capable of answering user queries using NLP and large language models. Integrated conversational AI techniques to provide intelligent, context-aware, and interactive responses.
Responsibility : Designed and developed the chatbot interface, integrated NLP and generative AI models, implemented prompt engineering techniques, managed API integration, and improved response accuracy.
Domain: Generative AI
Skills: Python, Langchain, Ollama, Llm, Streamlit, Prompt Engineering
- Mobile App Ratings** **Jun 2025 - Oct 2025**
Description : Developed a machine learning model to forecast mobile app ratings by analyzing app-related features such as user reviews, category, size, installs, and pricing.
Responsibility : Collected and cleaned mobile app dataset, performed exploratory data analysis, trained and evaluated machine learning models, optimized prediction accuracy, and visualized insights using Python.
Domain: Machine Learning
Skills: Python, Scikit-Learn, Machine Learning, Data Analysis, Data Visualization, Regression Analysis
- Automated Food Image Classification** **Feb 2023 - May 2023**
Description : Developed an automated food image classification system using deep learning techniques to identify and categorize food items from images with high accuracy.
Responsibility : Collected and preprocessed food image datasets, trained and evaluated CNN models, improved classification accuracy through data augmentation and model tuning.
Domain: Machine Learning **Skills:** Python, Tensorflow, Opencv, CNN
- Visualizing US Natural Disaster Declarations: Trends and Patterns** **Dec 2025 - Feb 2026**
Description : Developed a data analytics and visualization system to analyze US natural disaster declaration data and identify trends, regional patterns, and disaster frequency through interactive visualizations and dashboards.
Responsibility : Collected and preprocessed disaster datasets, performed exploratory data analysis, created dashboards and visual reports, and generated insights using data visualization techniques.
Domain : Data Analytics & Visualization
Skills : Python, Pandas, Matplotlib, Seaborn, Power BI, Data Visualization

ACHIEVEMENTS

- | | |
|--|-----------------|
| ARTIFICIAL INTELLIGENCE Certificate
Accenture
This course helped discover the potential of (AI) and how it can change the workplace. It enhanced understanding of AI with interesting facts, trends, and insights. | May 2023 |
| Digital marketing Certificate
Google
Certified in Digital Marketing Fundamentals, covering SEO, social media marketing, content strategy, and online advertising basics. | May 2023 |
| Bascis Of Python Certificate
Infosys Springboard
Certified in Python fundamentals, including programming basics, data structures, problem-solving, and application development. | May 2023 |
| ESG Job Simulation Certificate
Tata Forage
Completed ESG Job Simulation focused on sustainability, environmental impact assessment, governance practices, and business responsibility analysis. | Dec 2024 |
| Generative AI principles Certificate
Infosys Springboard
Certified in Generative AI principles, including NLP, prompt engineering, AI models, and real-world AI application development. | Oct 2025 |
-

INTERPERSONAL SKILLS

Problem Solving (Advanced), Communication (Advanced), Time Management (Advanced), Reasoning (Advanced), Leadership (Expert), Decision-Making (Expert), Active Listening (Expert), Quick Learning (Advanced)
